

GOURAV VYAS

Digital Marketing & Growth Strategist | Content Creator

+91-9685533548 | gouravvyas542@gmail.com | [@gourav and life: 1M+ Reach \(30 Days\)](#) | [Linkedin: gourav-vyas14](#) | Bangalore, India

PROFESSIONAL SUMMARY

I started as a developer but somewhere between building products, writing launch copy, doing brand video shoots, and watching my Instagram hit 1M reach in 30 days, I realised I am more energised by connecting with audiences than by writing code. I bring a rare mix: a techie's grasp of data, funnels, and GTM strategy, with a creator's instinct for content, culture, and what actually makes people stop scrolling.

CORE

Social Media Marketing: Instagram Growth, Content Calendar Management, Reel & Short-form Video, Platform Algorithms, Audience Engagement

Content Creation: Social Media Captions & Scripts, Video Shoot Production, Brand Storytelling, Long-form & Short-form Writing

Digital Marketing: Campaign Execution, Go-to-Market (GTM) Strategy, Email Marketing, SEO Fundamentals, Landing Page Optimisation

Influencer Marketing: Creator Outreach, Brand-Creator Collaboration, Campaign Briefing, Performance Tracking

Growth & Analytics: Audience Behaviour Analysis, Market Trend Research, A/B Testing, Campaign Performance Reporting, Data-Driven Strategy

Graphic Design & Tools: Canva, Figma, Tailwind CSS, Responsive UI, Postman

Technical (Bonus): React.js, Next.js, Node.js, MongoDB, Firebase, REST APIs, Git - developer fluency enabling deeper marketing tech understanding

SOCIAL MEDIA | INSTAGRAM: 1M+ REACH IN LAST 30 DAYS

- Grew Instagram to 1M+ organic reach in the last 30 days through consistent content strategy, platform-native formats (Reels, carousels, Stories), and community engagement with zero paid promotion.
- Deep, first-hand understanding of Instagram's algorithm, content performance metrics, posting cadence optimisation, and what drives saves, shares, and follower growth.
- Creator-side experience with brand collaborations provides a unique advantage in influencer marketing: able to write effective briefs, evaluate creator fit, and foster authentic partnerships that perform.
- Closely tracks internet culture, viral trends, and audience behaviour shifts translating platform insights into campaign ideas relevant to travel, lifestyle, and consumer goods audiences.

EXPERIENCE

Freelance Content Creator & Videographer | Independent | Remote

2024 – Present

- Produced social media content captions, scripts, and short-form video for lifestyle brands, driving engagement and brand awareness across Instagram and other digital platforms.
- Executed end-to-end video shoots for brand campaigns: concept development, on-set direction, post-production editing, and delivery of platform-ready assets optimised for Instagram and Reels.
- Wrote persuasive, on-brand social media scripts and captions tailored to each brand's tone of voice, audience persona, and campaign objective consistently meeting brief and deadline requirements.
- Managed client communication, creative feedback cycles, and content approval workflows independently, building a foundation in client servicing and brand collaboration.

Software Developer Intern (Marketing-Embedded) | MediaAMP | Ahmedabad, India

May 2025 – Nov 2025

- Collaborated on Go-to-Market (GTM) strategy for product launches contributing to positioning, messaging, and launch sequencing alongside the marketing team, directly shaping how products were communicated to end users.
- Participated in brand video shoots and content production sessions; contributed to pre-production planning, on-set execution, and delivery of digital marketing assets used across social media and product pages.
- Wrote product and marketing copy including landing page content, feature descriptions, and social media content bridging technical accuracy with audience-facing clarity.

- Led development of a major production module in React.js and Next.js, cutting page load time through lazy loading and optimised rendering directly improving campaign landing page performance metrics.
- Built a reusable UI component library that reduced future development effort by ~25%, enabling the marketing team to ship campaign pages faster without engineering bottlenecks.

MERN Stack Developer | SoftSensor AI | Jaipur, India

Jan 2026 – Mar 2026

- Built 10+ responsive, production-grade UI components while actively observing how design and UX decisions affect user acquisition and retention reinforcing the decision to move into a marketing-led role.
- Collaborated cross-functionally with design and product leads, gaining exposure to product marketing thinking: how features are positioned, messaged, and prioritised for user impact.
- Maintained Git/GitHub workflows and peer code reviews developing a structured, accountable approach to project delivery transferable to campaign management and content production pipelines.

PROJECTS

Deepwrk — AI-Powered Focus SaaS deepwrk.vercel.app 2025

HungryBite — AI Food Ordering Platform hungrybite.onrender.com 2025

AutoFix AI — AI Debugging Tool autofix-ai-frontend.onrender.com 2024

LEADERSHIP & COMMUNITY BUILDING

Event Lead | Google Developer Student Club (GDSC) | Poornima University

2023 – 2024

- Planned and executed coding workshops, hackathons, and technical events for 100+ student developers managing end-to-end event marketing, speaker outreach, community engagement, and cross-platform promotion.
- Grew the GDSC community through consistent content programming and peer-to-peer outreach an early, practical application of community growth strategy and audience retention.

EDUCATION

B.Tech in Computer Science | Poornima University, Jaipur

2022 – 2026

CGPA: 8.1 / 10.0 | Relevant coursework: Web Technologies, Software Engineering, Data Structures & Algorithms
